Skills

Architectural Designer with over four years of experience across residential and education projects in New Zealand and the UK. Strong experience across all project stages, from concept through to construction, with a focus on well-resolved design, detailed documentation, and consultant coordination. Proficient in ArchiCAD and confident contributing within collaborative, design-focused teams.

Education

Ara Institute of Canterbury (BArch)

2019 - 2021

Work Experience

Design Workshop Architecture - CHCH, NZ

Architectural Technician

2025 - 2026

Contract role assisting with planning and construction documentation, while supporting the director with daily tasks

MW Architects - LDN, UK

Architectural Assistant

2024 - 2025

Worked across all RIBA stages on private residential refurbishments and extensions, contributing to projects from concept through to construction. Played a key role in design development, preparing planning drawings and supporting statements, and producing detailed tender and construction documentation. Collaborated with engineers, consultants, and contractors to coordinate technical details and ensure design integrity. Assisted with contract administration, valuations, and obtaining quotes from contractors and suppliers, ensuring smooth project delivery and compliance with client and regulatory requirements.

Stufkens + Chambers Architects - CHCH, NZ

Graduate Architectural Designer

2021 - 2023

Focused on concept design and presentation work, collaborating with senior architects on residential new builds, townhouse developments, and education projects. Contributed to planning applications and the production of detailed construction drawings, coordinating with engineers and consultants to support project development.
